To whom it may concern.

We have been working with Janusz Gaczynski of UNISSET, Slupsk, Poland for the last seven years and enjoy a very friendly working relationship.

We regularly import quantities of spirally welded steel tubes, up to 1420 mm diameter, from UNISSET into the United Kingdom.

We have always found UNISSET to be a very diligent organisation offering a very good and prompt service, and we look forward to many more years of close cooperation.
